

TECHNICAL DATA SHEET

DESCRIPTION

Want to check out your hair, but you can't see your reflection in your floor? Use Classik floor finishes to make your floors shine!

If you are confused, here is a guide to help you choose:

18% Floor Wax: You rarely apply floor wax. This product is ideal for beginners.

25% Floor Wax: Dries fast for professional that are paid by the square foot.

Spray and Buff: To impress your guests without breaking a sweat.

Floor Stripper: Regular mopping not bringing back your floor's special shine? It's time to use our Floor Stripper.

Floor Sealer: To protect your floor so that it can have a forever and ever fairy tale ending

DIRECTIONS

Regular mopping not bringing back your floor's special shine? It's time to use our Classik Floor Stripper.

Our floor stripper will easily cut through multiple coats of wax allowing you to unearth your floor's past. Why so blue? Why not! Ok, we'll tell you... it's to make it easier to see where you've already removed the wax.

For floor finishes and sealers: Dilute 1 part Floor Stripper in 2 parts lukewarm water. Apply the solution on the entire surface of the floor. Give it a few minutes to work. Use a scraper to remove the wax residue. Rinse well with water and allow to dry before applying a new coat of wax.

FOR USE IN FOOD PLANTS:

Surfaces in direct contact with food must be rinsed with potable water after treatment with the product.

ENVIRONNEMENT & CERTIFICATION
